SAP SE

Key Challenges of AI in Software Development

LLM uses outdated concepts

LLM uses older framework version

LLM does not use framework specific best practices

LLM generates code which does not work at all

Goal # 1

Creating and enhancing state-of-the-art OpenUI5 and SAPUI5 projects

Goal # 2

Leveraging best practices and avoid legacy patterns

Goal # 3

Let the agent be your pair programmer

Our Goals

The agentic journey at UI5

2025 / 09

2026 / 03

2026 / 06

2026 / 07

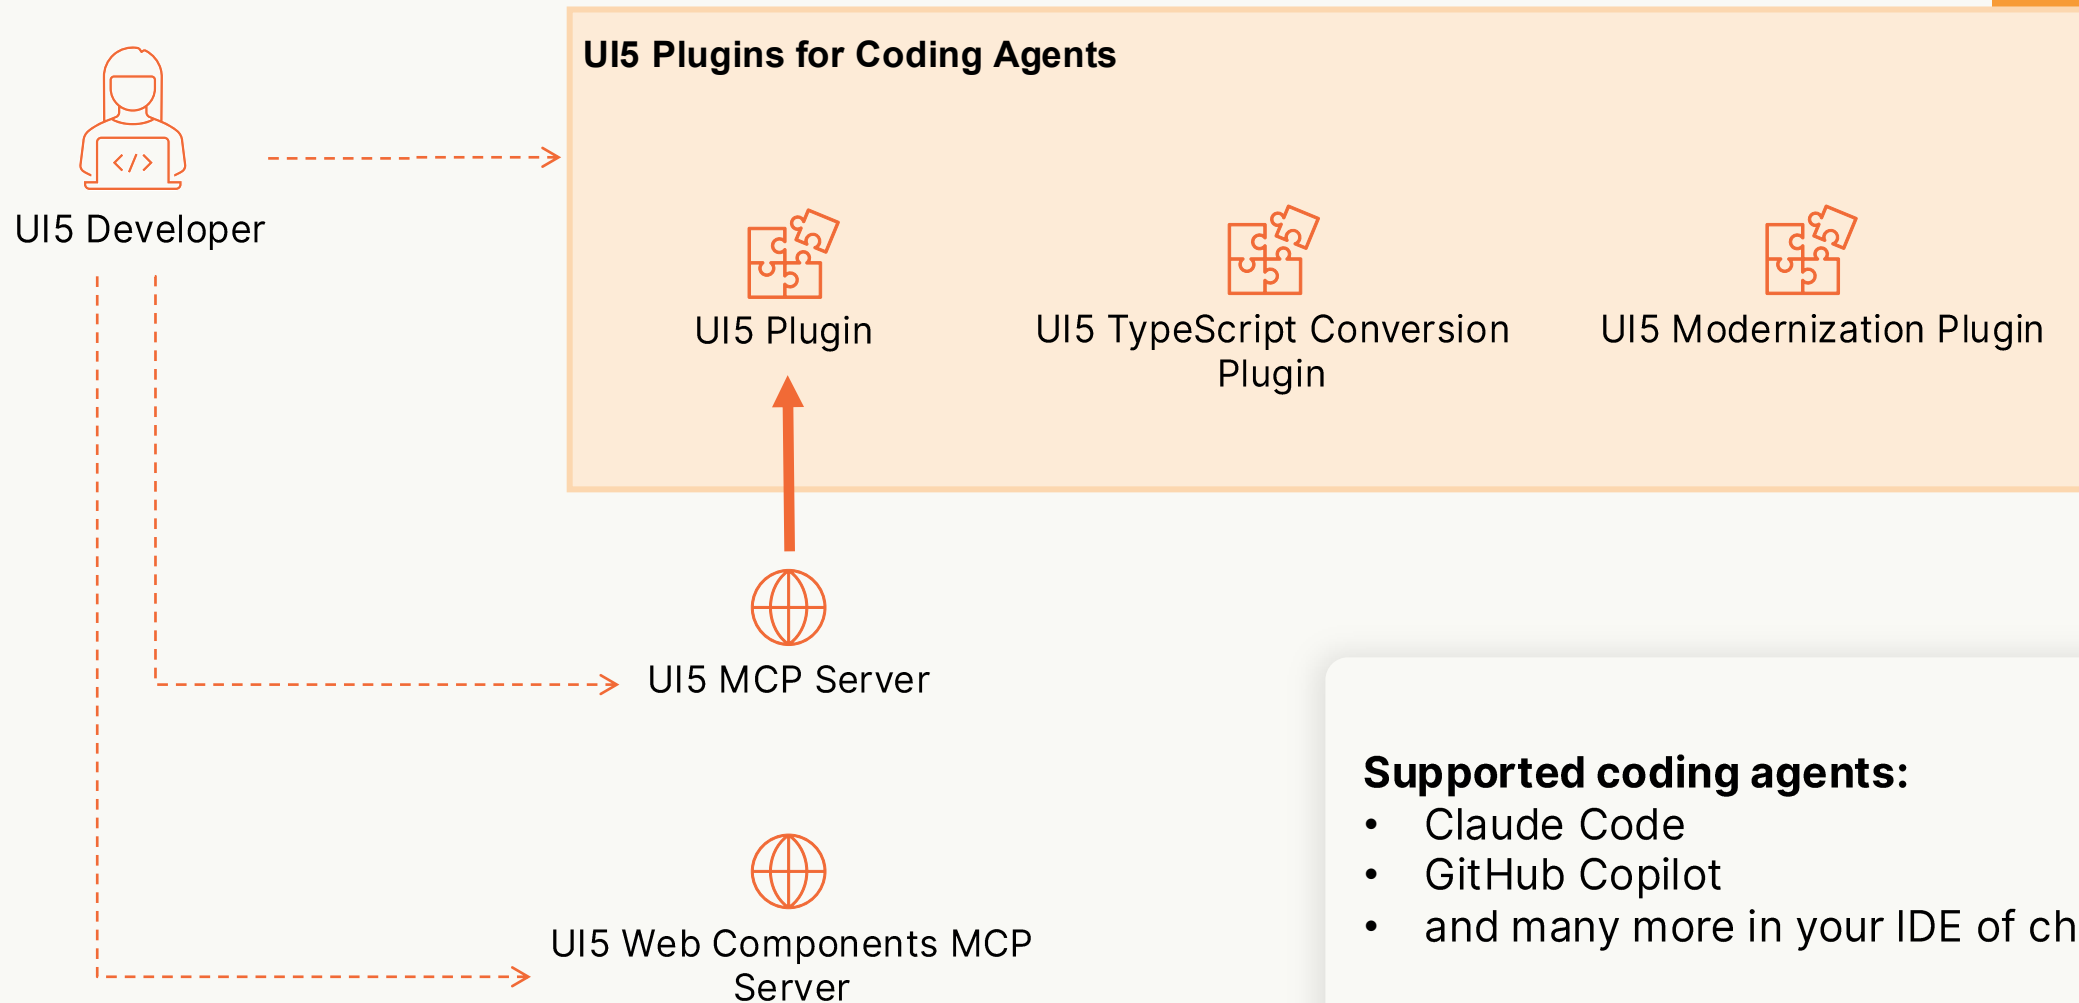

UI5 MCP Server

UI5 Plugins for Claude

Agents

UI5 Modernization
Plugin

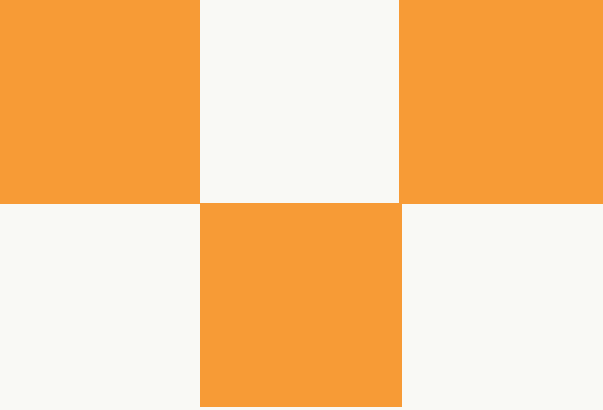

Agentic Capabilities for UI5 Development

Supported coding agents:

- Claude Code
- GitHub Copilot
- and many more in your IDE of choice

Next steps

1

UX Validation

- Detect and address common UX and accessibility issues.
- Improve consistency across generated OpenUI5 / SAPUI5 applications.

2

Date & Time Controls

- Enhance support for date and time-related controls.
- Generate standards-compliant implementations out of the box.

3

OpenAI Codex Support

- Built-in support for OpenAI Codex and ChatGPT

Key Takeaways

SAPUI5 Development

UI5 plugins for coding agents accelerate SAPUI5 application development with best-practice guidance.

Modernization

UI5 plugins for coding agents simplify modernization by replacing deprecated APIs / outdated UI5 patterns.

TypeScript Migration

UI5 plugins for coding agents enable seamless TypeScript conversion for SAPUI5 projects.

UI5 Plugins for Coding Agents

- Support for GitHub Copilot and Claude Code
- Bundles UI5 MCP server and UI5 skills
- New central offering for developers

<https://community.sap.com/t5/technology-blog-posts-by-sap/ui5-plugins-for-coding-agents-now-supporting-github-copilot/ba-p/14427058>

The screenshot shows a web browser window displaying a SAP blog post. The title is "UI5 Plugins for Coding Agents: Now Supporting GitHub Copilot". The author is Florian Vogt, a Product and Topic Expert at SAP. The post text mentions the project's previous name, "UI5 Plugins for Claude", and announces support for GitHub Copilot and three new skills. Below the text is a large graphic with a blue-to-purple gradient background. The graphic features a white starburst icon, a plus sign, and the GitHub Octocat logo. The text "UI5 Plugins for Coding Agents" is prominently displayed, followed by a "NEW RELEASE" button. At the bottom of the graphic, it says "Start your UI5 journey with Copilot and Claude".

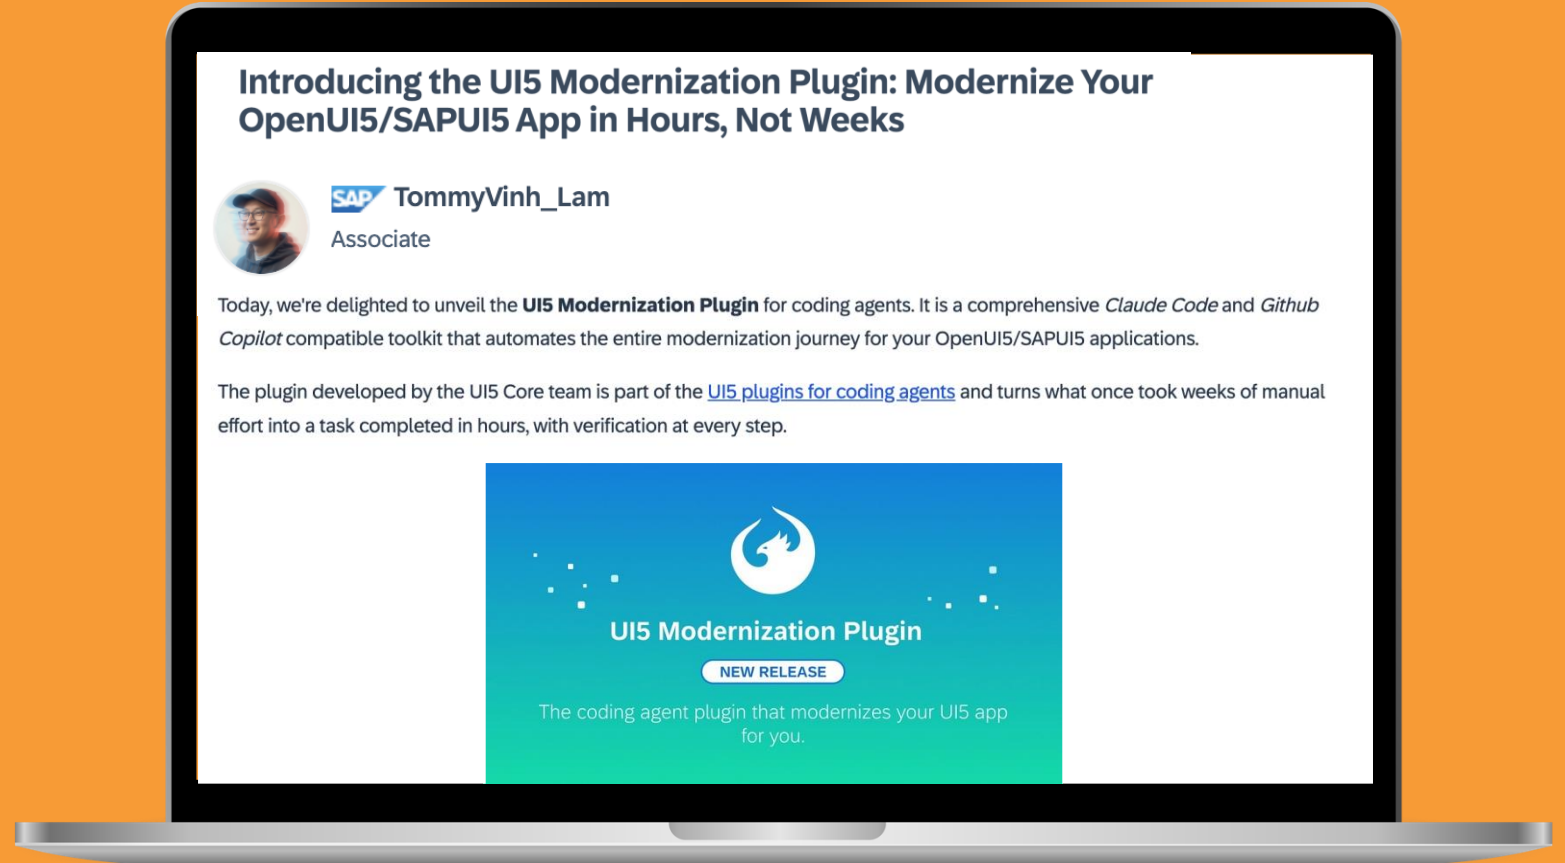

UI5 Modernization Plugin

Automate your modernization journey

- One command
- 19 specialized skills
- 5 phases
- 3 verification modes
